SIERRA PREMIUM
LUXURY ENGINEERED TO PERFORM

Beauty that begs to be touched...

Sierra Premium Shake creates beautiful curb appeal that begs to be touched and examined more closely. Sierra's rich texture offers all the character of natural wood, but has the benefit of being backed by the performance of fiber cement. The deep grooves and keyways give Sierra a luxurious look that never grows tired and quietly demands attention. At a full half-inch thick, Sierra is as beautiful to the eye as it is substantial to the touch. Sierra Premium Shake is built to last and will not only turn heads, but stop traffic for a very long time.

True beauty never loses its luster...

Dramatic Shadow Lines: Half-inch thick construction creating dramatic curb appeal.

Engineered Performance: Coated with state-of-art PPG finish.

Durability: Strong fiber cement construction that defends against Mother Nature's wrath.

Deep Grooves and Keyways: Offering a luxurious look that stands out against the crowd.

Versatility: Offered in primed or 3 pre-finished color options.

Simply Stunning

Sierra Premium Shake puts it on thick...

the shadows, the performance and the drama. A house wrapped in Sierra is a source of pride and will stay that way for a long time. Backed by the power of fiber cement, Sierra Premium Shake is a low maintenance solution that will remain beautiful for years to come. Sierra's half-inch thick construction creates dramatic shadow lines that ensure your home stands out against the crowd.

PPG Semi-Transparent Finish

A second coat just to reemphasize that we mean business.

PPG Duracolor™ Semi-Transparent Finish

A proprietary PPG coating engineered to stand up to the sun, the rain and anything else Mother Nature has to offer.

PPG Sandstone Basecoat

A layer of solid color infused with PPG's durable pigmentation. This layer is the "heavy armor", providing the greatest level of protection for the fiber cement.

Nichiha sealer and Primer

First line 2-coat protection against moisture.

Nichiha fiber cement

Resistant to warping, rotting and falling victim to pests. At a half-inch thick, it is the category's thickest.

Sierra Premium Shake is a full half-inch thick, creating deeper, more dramatic shadows, textures, and keyways. Like all our products, Sierra remains resistant to rotting, warping, pest concerns and delamination.

Sustainability comes naturally

Fiber cement products are by their very nature essentially green products. All our products are comprised of a high percentage of wood pulp and fly ash; both are examples of an abundant, manufacturing by-product. Sustainability, however, goes far beyond ingredients. Nichiha has a long history of conserving resources and employing manufacturing best practices that make as much sense for our planet as they do for our customers.

We don't add silica. Silica is a naturally occurring compound, while our products are not silica free – we do not use additional silica in our manufacturing process.

Silica Dust Warning: NICHIIHA products may contain some amounts of crystalline silica [a.k.a. sand, silicon dioxide], which is a naturally occurring mineral. The amount will vary from product to product. Inhalation of crystalline silica into the lungs and repeated exposure to silica can cause health disorders, such as silicosis, lung cancer, or death depending upon various factors. To be conservative, Nichiha recommends that whenever cutting, sawing, sanding, sniping or abrading the product, users observe the Safety Instructions above. For further information or questions, please consult the MSDS, your employer, or visit www.osha.gov/SLTC/silicacrystalline/index.html and www.cdc.gov/niosh/topics/silica. The MSDS for Nichiha products are available at www.nichiha.com, at your local Nichiha dealer or through Nichiha directly at 1.866.424.4421. FAILURE TO ADHERE TO OUR WARNINGS, MSDS, AND OTHER INSTRUCTION MAY LEAD TO SERIOUS PERSONAL INJURY OR DEATH.
